

Urochem 106

EPOXY DAMP SURFACE PRIMER

DESCRIPTION

Urochem 106 is a two-part moisture tolerant primer that has a long open time, for use on damp substrates.

PRODUCT APPLICATION

Its main application is as a primer coat for use with **Urochem** polyurethane and epoxy compounds where the substrate is still damp.

SURFACE PREPARATION

- Ensure all surfaces to be primed are clean, sound, and free of standing water. Laitance or surface contamination should be removed by thorough wire brushing, surface grinding or grit blasting.
- Vacuum or blow with compressed air to ensure thorough removal of dirt.

APPLICATION

- Mix the base and activator together thoroughly. Brush or roller apply a thin coat of primer and allow to dry.
- ***If not overcoated within three hours, reprime.***

CLEANING

Clean brushes after use with **Urochem 901**.

SAFETY

- Contains organic solvents
- Flammable.
- Do not use in confined spaces. Ensure adequate ventilation and the absence of any ignition source. Wear protective clothing. In case of eye contact wash well with water and obtain medical advice.
