

Urochem – Long Barrel Gun

DESCRIPTION

A **Urochem Long Barrel Gun** (Caulking gun) is a device that holds a 280ml or 300ml cartridge or a 600ml sausage, allowing for the effective installation of the selected sealant into expansion or construction joints, or into other common gaps, for example, around window frames and door jambs.

PROPERTIES

- Light application of force results in uniform extrusion of sealant from the sausage.
- Immediate power transfer to push rod.
- Sturdy aluminium cylinder.
- Reliable components and mechanism.
- Forged aluminium handle.
- Easy to clean.
- Suitable for sausages (600ml) and cartridges (280ml & 310ml).
